# Index 1999

## Subject

**A**-level experiment, candle investigations, 134
A-level experiment, $O_2$ in natural waters, 162
A-level experiment, tlc synthesis, 132
A-level practical, changes, 144, 151L
A-level, exam questions, 28, 95L
A-level, key skills, 32C
A-level, standards, 28
Acid dissociation, extent of reaction, 79
Action planning, year 9, 138
Activation terms, units, 107
Air pollution monitoring, 6C
Alizarin, 20
Alkaline fuel cell, 124
Aluminium silicate minerals, 91C
Alzheimer's disease, diagnosis, 80
Amniotic fluid, contamination, 165
Anaesthetics, soundbite, 62C
Anticancer drugs, from the ocean, 41
Arsenic, soundbite, 35C
Arthritis, new treatment, 109
AS, science, PUS, 34C
ASE, Reading, 32C
ASE–RSC links, 115C
Assessment, school level, 156
Atkins, Peter, Nyholm lecturer, 60C
Atmospheric chemistry, 99
Atomic model, teaching method, 12

**B**eyond 2000: science education for the future, 31C, 155
Biocatalysts, applications, 70
Blodgett, Katherine, 153
Blood–brain barrier, 109
Bonding, 95L
Book reviews
  A-level chemistry, 27, 82
  Analytical chemistry, 54
  Aquatic environmental chemistry, 166
  Chemical and biological sensors, 139
  Computational chemistry, 110
  Forensic science, 110
  GCSE chemistry, 27, 166
  GCSE modular science, 54
  GCSE science, 54
  Inorganic chemistry, undergraduate, 82
  Laboratory chemistry, undergraduate, 27
  Mathematics for chemists, 27, 110
  Molecular modelling, 83
  Moles, 82
  National Curriculum, science, 54
  Organic chemistry, undergraduate, 139, 166
  Pesticides, 83
  Physical chemistry, undergraduate, 82, 111
  Safety and risk, 55
  School chemistry, 110, 166
  Science communication, 139
  Science foundations, 82
  Science, KS3, 139
  Soap bubbles, 83
  Spectroscopy, infrared, 27
  Symmetry and Group Theory, 111
  Thermodynamics, 83
  Undergraduate chemistry, introduction, 55
Bragg, Lawrence, 66C
Bragg, William, 66C
Brain imaging, 77
*Breakthrough*, history of science, 35C.
Bristol Exploratory, 143
Brooks, Harriet, 153
Bryostatin-1, anticancer agent, 41
Bunsen, Robert Wilhelm Eberhard, 127

**C**acodyl compounds, 127
Cancer therapy, gene therapy, 116C
Candles, use of, 130
Car power, 125
Carbon onions, 15
CASE research, 25
Catalysts, 17
CFCs, alternatives, 116C
Chartered Chemist, status, 114C
Chemical and physical changes, 56
Chemical bonding, misconceptions, 136
Chemical education research, 45, 135
Chemical formulae, 122L
Chemical games, 155
Chemistry camps, 145C
*Chemistry images*, database, 118C
Chemistry in our lives, 4C
Chemistry teachers, declining numbers, 115C
Chemistry teaching, image problems, 86C
Chemistry trails, 6C, 63C, 118C
Chemlingo, 36C, 93C, 149C
Christmas quiz, 146
CLEAPSS, chemicals survey, 159
Communicating chemistry, 155
Conceptual difficulties, 11
Conceptual frameworks, 135
Covalent bonding, teaching, 9L
Creative Science Centre, 92C
Cremer, Erika, 154
CREST awards, 119C
Crismer reaction, 67L
CTI centre, chemistry, 87C
Curie, Marie, 153
Cyclohexanol, oxidation, undergraduate experiment, 133
Cyclotron, 77

**D**avy, Humphry, 65C
Day, Peter, 66C
Dewar, James, 66C
Dexter, John, RSC 1998 chemical education award winner, 117C
Diltiazem, anti-angina drug, 19
Direct methanol fuel cell, 124
*Discovering science*, undergraduate course, 64C
Distillates, chemical education, 25, 81, 138
Distillates, research news, 53, 109, 165
Drug discovery, from natural sources, 39

**E**nrlich, Paul, 112
Electricity–cancer connection, 53
Electronic effects, 48
Electrosynthesis, school experiment, 9L
Elements 114, 116, 118, discovered, 120C
Enthalpy, units, 107
Entropy, units, 107
Environmental sampling, 53
Enzyme transformations, 17, 68
Epilepsy, diagnosis, 77
Epoxidation reactions, 19
Equilibrium, teaching, 12
Extent of reaction, 78

**F**amous names, history of chemistry, 36C
Faraday, Michael, 65C
Franklin, Rosalind, 153
Fuel cells, 123
Fulhame, Elizabeth, 152
Fullerenes, chemistry of, 14

**G**amma camera, 76
GCSE, investigations, 74
GCSE–A-level transition, 3C
Genetic switch, 53
Get set practical course, 72
GNVQ Advanced Science, revisions, 90C
Graduate Teacher Training, statistics, 115C
Graebe, Carl, 21
Grove, Sir William Robert, 123

**H**all, Julia, 152
HE, chemical education chair, York, 59C
Higher Education, changing cohort, 101
Higher Education, Nyholm lecturer, 60C
Higher Education, subject centres, 87C
History of chemistry, Bunsen, 127
History of chemistry, famous names, 36C
History of chemistry, Periodic Table, 42
History of chemistry, teaching, 25
History of chemistry, women, 152
Hodgkin, Dorothy, 153
Human learning, 45

**I**nfoChem
  Account manager, careers, no 58
  Air purification, no 57
  Anthocyanins, no 56
  Caffeine, no 55
  Carbon monoxide detectors, no 58
  Chlorine dioxide, no 59
  Chocolate chemicals, no 57
  Comet chemistry, no 59
  Conservation, no 55
  Deoxyribonucleic acid, no 57
  Education director, careers, no 60
  Eucalyptol, no 57
  Extremophiles, no 60
  Fire-resistant polymers, no 58
  Genetically modified crops, no 57
  Green chemistry, no 56
  Ionic liquids, no 56
  Metallocenes, no 59
  Raman spectroscopy, no 55
  Smoke alarms, no 58
  Solicitor, careers, no 56
  Steel, no 55
  Ziegler–Natta catalysts, no 59
Interactive teaching units, undergraduate, 23
Investigations, KS4, 74
Investigations, Sc1, 130

**J**oliot-Curie, Irene, 153

**K**ey skills, A-level, 33C
Key Stage 4 investigations, 74
Kinetics experiment, 105
Knight's move, Periodic Table, 160

**L**aboratory skills, 62C
Lachrymator molecules, 121C
Langmuir, Irving, 157
Lanthanide chemistry, 96
Lavoisier, Marie-Paulze, 152
Liebermann, Carl, 21
Light bulbs, soundbite, 5C
Lonsdale, Kathleen, 153
Lugan, Leonie, 152

**M**arcet, Jane, 154
Mastic, 109
Maths–science link, 2C, 81
Meitner, Lise, 153
Mendeleev, D. I., 42
Metal, classification, 12
Metal–ammonia solutions, 49
Methylene blue, 112
Microencapsulation, fullerenes, 15
Misconceptions, 138
Moles, 95L
Molten carbonate fuel cell, 124
*Multimedia chemistry school*, 33C
Multimedia chemistry, 67L

**N**anotubes, 15
National Curriculum for Science, teachers' views, 58C
National Curriculum, review, 32C, 88C
National Curriculum, science, 32C
National Curriculum–TIMSS link, 89C
Nature of chemistry, 45
Newlands, John, 4C
Nobel prize, chemistry, 7C
Nobel prize, medicine, 7C
Nobel prize, physics, 7C
Nobel prizes, history, 43

**O**ceans, drugs from, 39
OFSTED, standards, 143
Olympiad, competition, 121C
Onions, soundbite, 121C
Online Periodic Table, RSC, 31C
Open University TV Guide, 26
Open-ended investigations, 81
Oxandrolone, 165
Ozone chemistry, 99

**P**ainkillers, 165
Paralysis drug, 53
Periodic Table, trends, 160
Phenols, tests, 67L
Photosynthesis, $O_2$ production, 162
Picardet, Claudine, 152
Pockels, Agnes, 152
Polarimetry, undergraduate experiment, 38L
Polymerase chain reaction, 70
Porter, George, 66C
Positron emission tomography, 76
Post-16–university transition, 101
Practical school chemistry, 72, 151L, 158
Project Improve, workshops, 64C
Promethium chemistry, 97
Prospectuses, review, 31C
Proton exchange membrane cells, 124
Public understanding of science, AS-level course, 34C
Pyrocatechol, formation, undergraduate experiment, 133
Pyrolysis, 93C

**Q**ualifications and Curriculum Authority, on National Curriculum, 143
Quality Assurance Authority, school science, 31C

**R**eaction kinetics, undergraduate experiment, 105
Rocket fuel, 53
Royal Institution bicentenary, 65C
RSC, 1998 Chemical Education award winner, 117C
RSC, Chemical brothers, 87C
RSC, Education Divison HE teaching awards, 148
RSC, Hands-on symposia, 89C
RSC, Industry Study Tour, 120C
RSC, membership changes, 114C
RSC, MSc in management, 91C
RSC, Nyholm lecturer, 60C
RSC, Olympiad team, 121C
RSC, on teacher competence, 142
RSC, online Periodic Table, 31C
RSC, Parliamentary Links Day, 116C
RSC, STAR* project, 90C
RSC, teacher fellow, 1999–2000, 93C
RSC, *The age of the molecule*, 59C
RSC, Top of the Bench winners, 60C
Rudbeck, Sofia, 152

**S**afety issues, 159
Salters' A-level chemistry, 117C
Salters' Chemistry Teacher, 1998, 3C
Schizophrenia, diagnosis, 80
School chemistry, investigations, 131
School chemistry, misconceptions, 135
School chemistry, teaching methods, 155
School practical course, 72
School science, 31C, 84
School textbooks, 'official' courses, 140
Science Across the World, 4C
Scottish secondary education, 72
SET99, 61C
Sixthform research, 61C
Sleep, chemicals, soundbite, 147
Software reviews
  CAL tutorials, 55
  Chemistry, general, organic and biological, 55
  Chromatography, HPLC, 111
  GCSE chemistry, revision, 139
  Picturebase, chemistry and geology resource, 55
  Science, SATs, 83
Solid oxide fuel cell, 124
Soundbite molecules, 5C, 35C, 62C, 91C, 121C, 147C
$sp^2$ hybridisation, 122L
Stable isotopes, 97
Standards, school science, 143
Stationary power generators, 125
Stephenson, Kay, Salters' winner
Stoichiometric problems, 38L
Stratospheric ozone, 100
Structure determination, drugs, 40
Students' misconceptions, chemistry, 45
Subject centres, HE, 87C
Sundstrom, Anna, 152
Supermarket chemistry, 118C
Synthetic polypeptides, 18

**T**axol, anticancer drug, 19
Teacher shortage, 86C
Teachers, assessing competence, 142
Teaching chemistry, at four levels, 11
Teaching, image, 86C
The Periodic Table, 42
Thermostable enzymes, 68
*Thinking science*, school scheme, 25
Thomas, John M., 66C
TIMSS report, 89C
Titration curves, 51
TLC, synthesis, 132
Trainee science teachers, 23, 34C
Transferable skills, teaching, 23
Tropospheric ozone, 100
Tyndall, John, 66C

**U**lcers, treatment, 109
Undergraduate experiment, ethanoic acid dimers, 151L
Undergraduate experiment, kinetics, 105
Undergraduate experiment, $O_2$ in natural waters, 162
Undergraduate experiment, polarimetry, 38L
Undergraduate experiment, tlc synthesis, 133
Undergraduate OU course, 64C
Undergraduate practical, dyes, 21
Undergraduate teaching methods, 24
Undergraduate, work experience, 23
Understanding graphs, 138
University chemistry courses, 9L
University guides, 30C

**V**ariety in Chemistry Teaching, 146C
Viagra, drug discovery, 116C, 89C
Vocational qualifications, update, 5C, 90C

**W**ater chemistry, 11, 63C
Web watch, 8C, 37C, 64C, 94C, 137, 149C
Websites, university, 168
Which university, 30C
Wohler, Emilie, 152
Women in chemistry, 152

**Y**oung European Environmental Research (YEER), 145

**Z**eolites, soundbite, 91C
Zephex, antiasthmatic, 116C

**Key**
C – Column
L – Letter to the Editor
